

To the members of UNIEP

Europe's best! WORKSHOP for YOUNG PAINTERS

Ladies and Gentlemen,
One target of the UNIEP, the international association of painting contractors, is to promote the merging of the painters and varnishers in Europe.

Together with the STO Foundation, we invite you to a special workshop:

The best young painters will meet for a workshop in the beautiful surrounding of the headquarters of STO AG at Stühlingen (Germany).

The event will take place from 9 to 11 of September 2009. Each member of

UNIEP has the opportunity to delegate up to three participants and one accompanying person. The participants should have an excellent education as a painter and should have sufficient language skills. The conference language will be English.

Participants will have the opportunity to listen to interesting presentations on the future development of colour, colour trends and colour design. In addition, there is sufficient time and opportunity for conversation and meeting each other.

The members of UNIEP's board will participate also at the workshop.

Each participant will receive in advance a small task to design a cube surface. During the workshop he/she can present this work and inform the other participants about the profession of a painter in his own country.

During the whole event a film will be produced which can be used afterwards by every member of the association. The film will also be shown at the fair "Paint – Finishing & Facade 2010" in Munich.

The specialised press will be invited to report about this first meeting of the best young painters of Europe.
